WHAT ARE COURSE 'BLOCKS'?

Modern day schooling is devoid of many critical blocks of education that help shape our lives as adults. We give our students access to 9 different blocks of development to supplement what is ignored by most schools, by teaching essential skills like Entrepreneurship, Character Building, Personality Development, Life Skills, Career Management, Fitness, Creativity, Music, Languages etc.

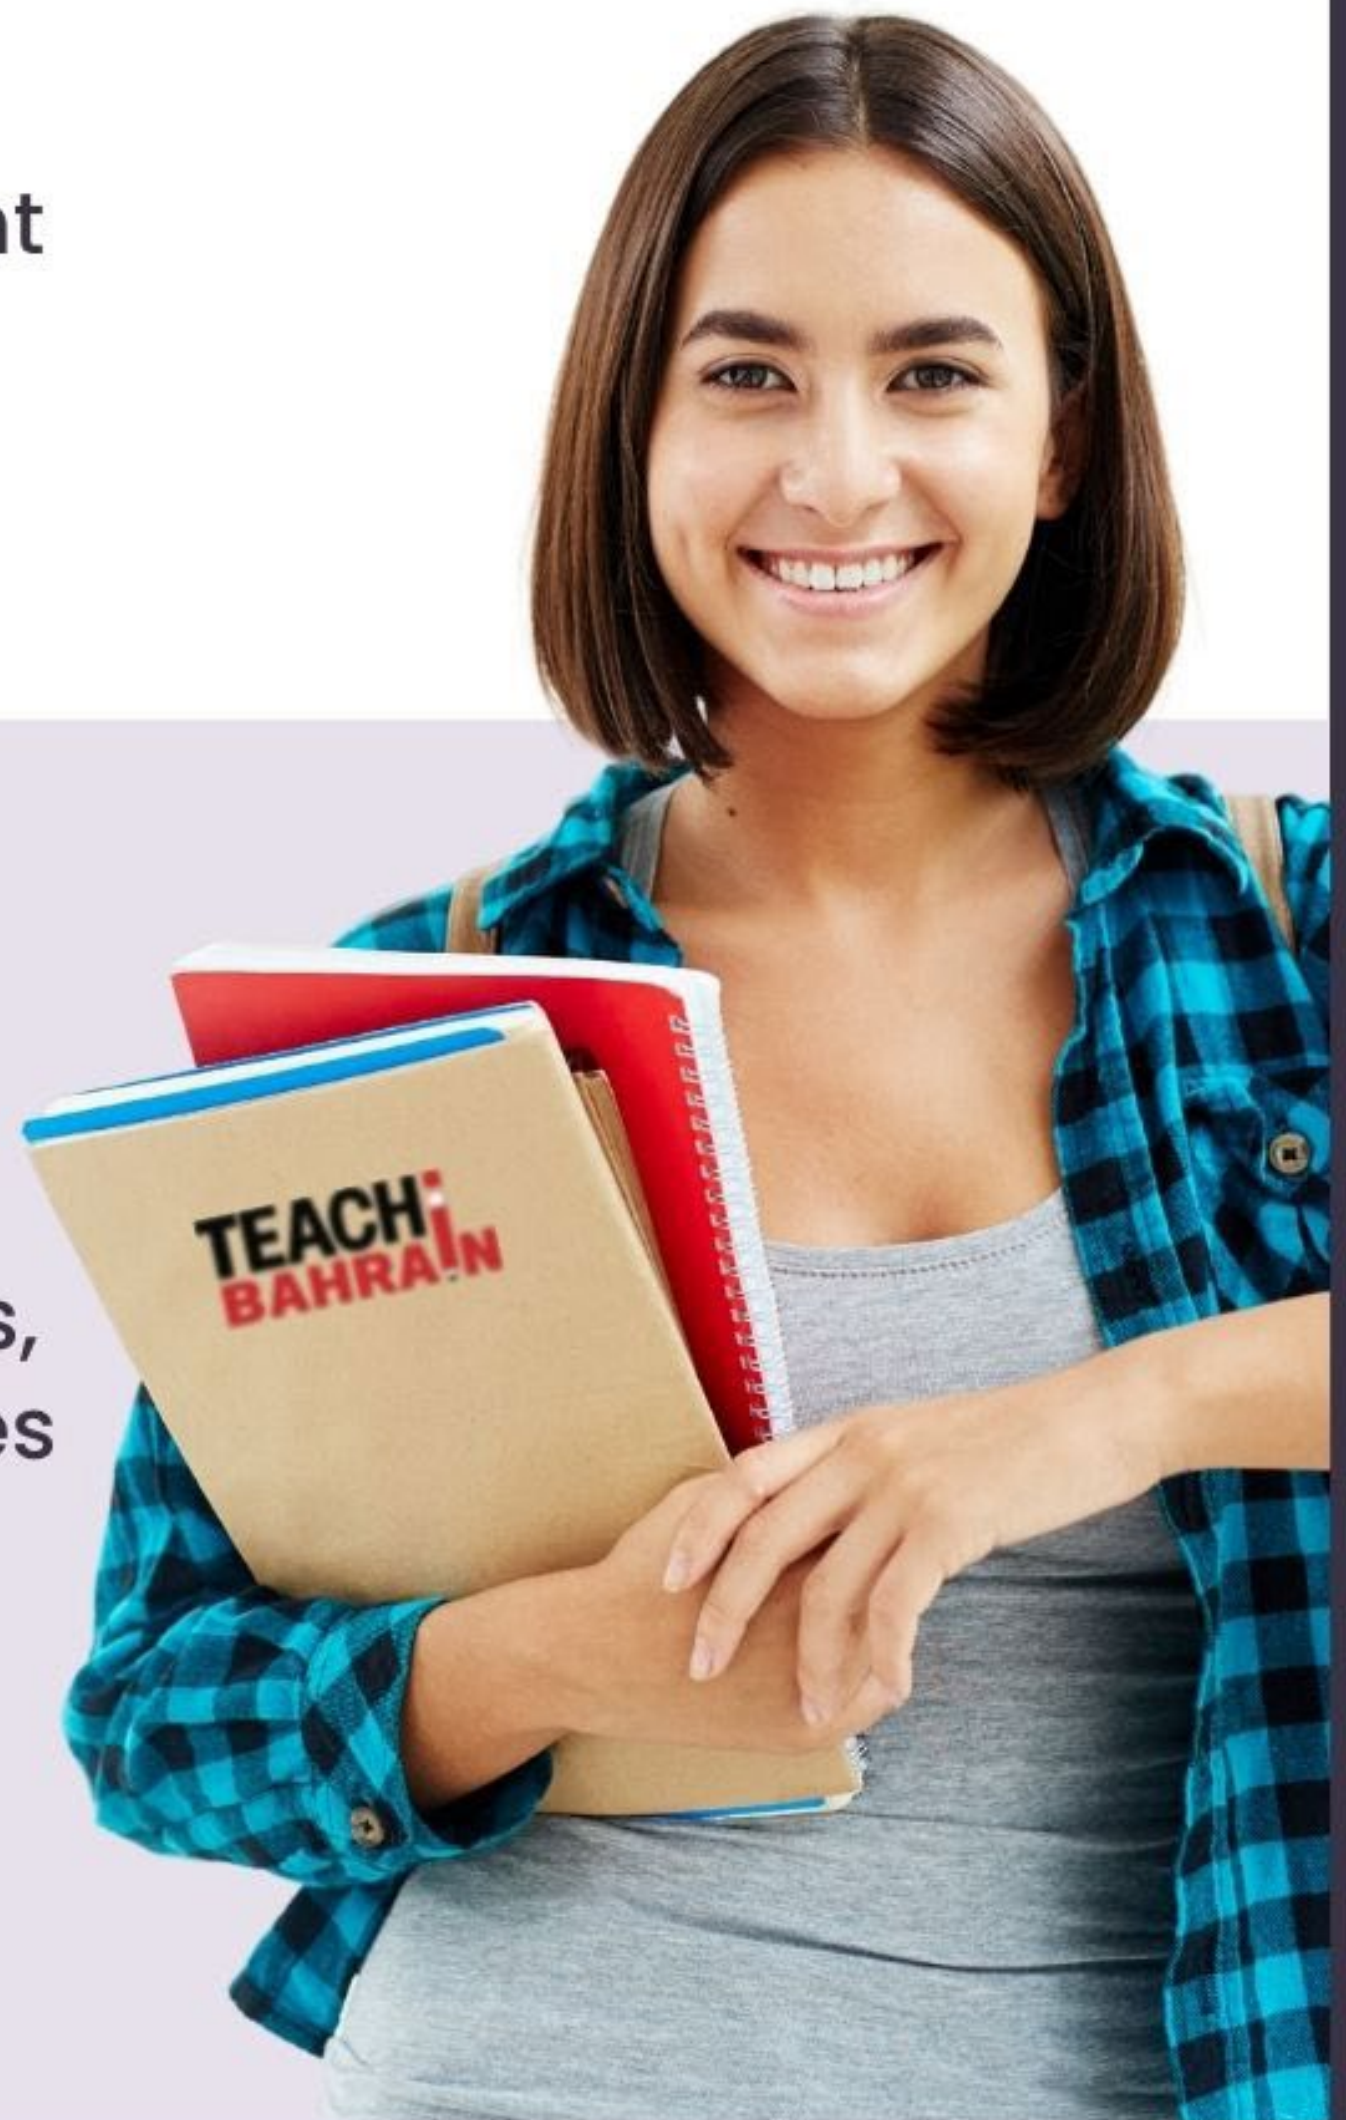

HOW MANY DIFERENT BLOCKS ARE THERE?

To make things more accessible to our students, we provide 9 different types of educational blocks, which give our students the flexibility to learn specifically what they want to.

HOW TO USE AND COMBINE BLOCKS?

Each 'block' can be selected at the discretion of the student and activated at any time. For example, if Maths is a weakness, it can be selected and combined with other options, like Computer Science. One can even decide to add Web Development to the already selected blocks, etc., etc. The possibilities are limitless, and chosen educational 'blocks' could evolve to look like the following:

Learning doesn't have to be a drag. We make it fun!

ACADEMIC BLOCK

WHAT DO YOU GET IN THIS BLOCK?

One Session Weekly

Each Session Is One Hour

4 Sessions Total In One Month

WHAT IS ENTREPRENEUR COURSE?

Our Entrepreneurship Program aims to introduce the concepts of setting up and launching a successful and profit-making business to those who have innovative business ideas and are keen to develop and manage a start-up business venture.

Who is this for?

Ideally, the program would benefit young people seeking to launch their careers into a brave new world. Students at our academy can choose to start their vocational training even at the junior school level.

LIFE SKILL BLOCKS

Although the main focus of student activity at our academy is one of learning and education, we want to ensure that our students are prepared as much as possible to be able to go out in the wider world and experience a fulfilling career in every aspect of their lives. As such, we also strive to guide students in disciplines and areas of life that require attention and a different approach.

- Career Management
- Character Building
- Personality Development
- Critical Thinking
- Time Management
